

## VOTE FOR J.D. CARROLL FOR GOVERNOR

### SEVEN NEGROES KILLED AND MANY INJURED

#### Blacks Terror-stricken When Race Riot Breaks Out In Chicago

Chicago, Ill., July 28.—Mayor Thompson today appealed to Gov. Lowden to mobilize a regiment of national guardsmen for immediate service in Chicago's blackbelt, where sporadic rioting has been in progress since yesterday afternoon, and which already has resulted in the death of seven negroes, the serious injury of a number of negroes and whites, and the injury of scores of others.

Quick action was taken. Four regiments were ordered mobilized. Adjutant General Dickson announced whether the troops will be sent into the disturbed district will depend upon the night's developments.

Chicago Police Inadequate  
The mayor's action was taken after it became evident the city police force was inadequate to maintain order in the five-mile area where as many as ten clashes developed in an hour.

Several hundred negroes, many flashing knives and guns, congregated early tonight south of State and Thirty-fifth streets. After numerous minor fights most of them dispersed. In one outbreak a white man was reported stabbed to death.

Blacks Terror-stricken  
The police said the negroes are terror-stricken, and appeared on the streets only in groups, which gathered at alleys and then ran full speed to their destinations.

The police are making a special effort to break up secret meetings of negroes in halls and flats.

There were numerous riotous outbreaks tonight, but in the majority of cases the clashes involved only a score or more of blacks and whites.

### RECORD OIL WELL IN WARREN COUNTY

Bowling Green, Ky.—Another gusher reported as the biggest well in Kentucky, came in Thursday afternoon on the Lawrence Phillips lease in Warren county, located immediately across the road from the Moulder wells.

The lease is operated by the Kirby Oil company and is owned by Louisville men known as the Butler interests.

Its completion makes the fifth good well on this lease. The gusher is an offset of the famous Moulder well, but is reported a larger producer. The Moulder gusher, when it came in a few weeks ago, was computed the largest well in Kentucky.

Well No. 2 on the Pearson lease in Simpson county was shot yesterday and is reported at fifty barrels.

### STANDARD OIL TO DOUBLE STOCK

New York.—The Standard Oil company, of New Jersey, today announced a proposed increase in its common stock from \$100,000,000, virtually doubling the present capitalization. The new stock will be at seven per cent, preferred, but non-voting, and be offered to the present shareholders at par.

The purpose of the issue, which is subject to the approval of the shareholders, is to provide for a "vigorous prosecution of the development of a campaign planned during the war and launched immediately after the armistice was declared."

### WILLIAMS-HALL

Mr. Sidney Williams and Miss Willye Hall were married at Owensboro Saturday night. This was quite a surprise to Mr. Williams' many friends here. Miss Hall is a daughter of Mr. S. R. Hall, of Luzerne, Ky., and has held a responsible position in Central City for some time. Mr. Williams is a son of Rev. and Mrs. Andrew Williams and is well known in and around Hartford. He has recently returned from overseas.

### ANY CHANGE IN PEACE TREATY WOULD REOPEN ALL NEGOTIATIONS

Washington.—Any reservations in senate ratification of the peace treaty would reopen the whole field of negotiation, encourage other nations to make reservations and renew international dissensions, declared Senator Pittman, of Nevada, a Democratic member of the foreign relations committee, in an address today in the senate.

The speaker cited the Spanish treaty of 1819, to which the senate attached a reservation as to papal claims in Florida, and said that although the Spanish government attached the same reservation, the treaty of 1899, to which the senate attached the two stipulations were differently worded. He pointed out that the supreme court later had held this reservation to be "a part of the treaty," and that the same court had held of the treaty with Spain that "in its essence it is a contract."

"Are we justified in assuming that other parliaments and governments will accept without further interpretation our definitions of the articles of the covenant as affecting our own obligations?"

Chance For Japan  
Japan's most bitter fight at the council table was to grant the league jurisdiction to prevent the United States, Canada and Australia from excluding Japanese from their territories under the immigration laws. Think you that the Japanese government will neglect the opportunity to again insist upon reservations in the treaty covering this point?

"Think you that the United parliament, having the opportunity by re-opening of negotiations, would hesitate to place in the treaty reservations which they believe are necessary to protect their interests at Manila, Panama and along the Adriatic when we had set the example?"

"Would there be cause for surprise if, in the circumstances, the parliament of Great Britain should feel justified in adding a reservation of the treaty when it goes back to them to the effect that the clause providing for limitation of naval armament shall not be reason of Great Britain's peculiar situation, apply to that government?"

"Unless we approve this treaty as it stands when we open the door to all of the disastrous possibilities of renewed international dissension."

"The nations of the world may all be against us, and in the League of Nations they may violently misconstrue the articles affecting our interest. They are more apt to attempt to accomplish this purpose if there is no League of Nations."

Sister Duke was a faithful daughter, a kind hearted wife and loving mother. She was a patient sufferer, a good neighbor and a true Christian. She rests from her labors and her works do follow her. ### Judge Carroll Leads In Race For Governor

According to Cromwell's straw vote based on reports from every county in state publisher in Cincinnati Enquirer, Chief Justice John D. Carroll, will be nominated by the Democrats Saturday, his lead being 7,150. Reports indicate that Judge Carroll is gaining in all parts of the state.

The feeling that he is the man to pit against Morrow is growing among Democrats who, regardless of personalities, desire success for the State ticket in November.

### THE PALMER CASE

The Senate committee in charge of the nomination of A. Mitchell Palmer to be Attorney General of the United States is not assisting the majority party in the Senate by its failure to act. In the principal business before the Senate and the country—the peace treaty—the Republicans of the Senate have had to meet the charge that they were subordinating patriotism to partisanship by opposing the treaty as submitted. They have vehemently denied this allegation. But now one of the most important committees holds up the confirmation of a member of President Wilson's cabinet, an unusual performance, which in the circumstances is not easily explained upon any other ground than mere partisanship.

If Mr. Palmer had failed to meet and sweep away the assertions which were intended to cast discredit upon his administration of the alien property custodian's office, or if anything had been developed to show his unfitness for the office to which the President promoted him, it would be difficult to show that the Senate committee had been inspired by partisanship in withholding a favorable report on his case. Mr. Palmer, however, met every statement intended to injure him—not only met them all, but destroyed them with the truth. They were vague and false at best, even when they were not originated by Germans or persons interested more in Germany than in honest execution of American law.

Why is Mr. Palmer subjected to treatment which should not be given to a faithful public servant? Why do the majority in the Senate committee incline to listen to enemy falsehoods or use these falsehoods to bolster up their opposition to President Wilson's choice as head of the Department of Justice?

A few days ago the life of Attorney General Palmer was attacked by assassins, one of whom was blown to pieces by the bomb intended for Mr. Palmer. Did these assassins seek his life because he had been false to his oath, dishonest, favorable to the enemy or incompetent? Were they Americans, burning with patriotic zeal, and disgusted because Mr. Palmer was unfit to execute the laws against the nation's enemies? If Mr. Palmer had been guilty of incompetence, dishonesty or disloyalty, the bomb throwers would not have sought his life. The attempt to get him out of the way is proof of his integrity and ability.

Why does the Senate committee try to prevent the confirmation of a man who has earned the hatred of the nation's enemies? What more evidence does it require of his fitness to bring the law down upon the heads of malefactors? Is confirmation withheld in order to embarrass and punish President Wilson, or are the majority in the committee hoping against hope that Mr. Palmer will despair of obtaining just treatment at their hands?

For shame, senators! Show your colors! You should either expose any crimes or misdoings of which A. Mitchell Palmer is guilty or report favorably upon his nomination. Unless Mr. Palmer can be immediately proved unfit for office, the delay in reporting his nomination will become an outrageous injustice to an American who has done his duty in the face of death.

Rev. E. S. Moore, pastor of the Methodist church at Beaver Dam, will fill the pulpit at the Hartford Methodist church Sunday.

### PRACTICALLY ALL HEROES WHO FELL IN FRANCE HAVE BEEN IDENTIFIED

New York.—Less than one-half of one per cent of the American soldiers, who died on battlefields of France were buried unidentified according to Col. Joseph S. Herron, Cincinnati, commander of the 15,000 troops who interred fallen Americans and who returned here today.

The men under Col. Herron's command removed the dead from the temporary graves dug for them, under a night on the field where they fell and laid them to rest in large concentration cemeteries.

Each cemetery is surrounded by a painted fence and the grass on the graves is kept green and cared for by a detachment of soldiers left on duty as caretakers. The largest graveyard is at Romagne where lie 22,000 Americans, who died in the Argonne and Meuse sectors, and the next largest is at Thiaucourt, where 4,300 soldiers, who fought at St. Mihiel and Toul, are buried.

### FARMERS

Your land will be raised higher every year if we do not take the power away from the State Tax Commission, at Frankfort, to raise the counties and make them raise you.

Carroll is the only man on ANY ticket who says take the power away from the State Tax Commission and let every county fix its own land values. Black not only stands by the raising system, but has arranged to keep the same Commission that has been raising you in the past.

Carroll is obligated to take the State tax off of land, and experts your support in the primary on August 2.

### CARROLL WILL HELP DEMOCRATIC PARTY

Sasy G. B. Likens, of Washington, in Interview With  
Herald Reporter.

Mr. G. B. Likens, who is engaged in war work at Washington, took advantage of a short vacation to visit his home people and be here to vote in the primary Saturday. He always takes an active interest in everything Democratic and is anxious to see party success in November. Being asked about the race for Governor, Mr. Likens said: "You know I never have any quarrel with Democrats. I am a partisan and want to see the ticket nominated Saturday win in November. I came through the State and stopped over a short while in Louisville, and I talked to men from many different counties. From unbiased opinions and information from Democrats who have no personal interest in the race, I am thoroughly convinced that Judge Carroll's nomination will insure eight or ten thousand more votes for the Democratic ticket in November than would otherwise be cast for our nominees. This sentiment is growing rapidly, and I trust Ohio County Democrats will, regardless of minor questions and personalities, consider this question of strength. I know we will have a hard fight and should take no chances. Having been associated in a way with Judge Carroll four years, I know him to be the kind of a man the people need and want for Governor. Democrats will not make a mistake in voting for him."
